## Flutter Entertainment Plc Historic pro forma information

 16. April 2021
## Flutter

## Summary

- From 1 January 2021, all external reporting of financial information and key performance indicators (KPI) will be realigned to a new four divisional structure consisting of:
- UK \& Ireland
- Australia
- International
- US
- This realignment of divisional reporting reflects how the business is now being managed
- It results in the following changes:
- Consolidation of PPB’s UK and Irish operations with Sky Betting and Gaming (SBG) to form new UK \& Ireland division
- Consolidation of PokerStars with Adjarabet and Betfair's international operations to form the new International division. Previously Adjarabet and Betfair International had been reported within PPB
- The following slides set out the historic pro forma ${ }^{1}$ financial and KPI information for the updated structure
- Financials for the Group, Australia and US remain unchanged

* Note: The AMP data provided above will not reconcile exactly with the totals reported in our FY20 preliminary results announcement. This is on account of further analysis carried out on the player base that subsequently excluded all "free-to-play only" customers in the US and a cohort of B2B customers within our International division.

Average Monthly Players represent the total number of players that have placed a sports bet/wager, staked a casino bet and/or contributed to rake or tournament fees during
a month within the reporting period. The totals include only those players that have deposited real money funds with a Flutter brand on at least one occasion.
2 UK\&I and US totals are not de-duped i.e. a customer that is active on more than one brand will be counted more than once based on the number of brands they are active 7
